

INTERDROUGHT 2022

THE 7TH CONGRESS ON PLANT PRODUCTION
IN WATER-LIMITED ENVIRONMENT

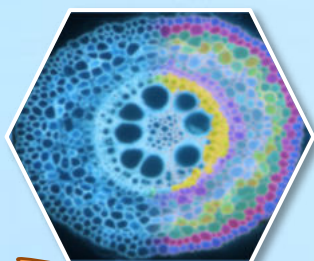

FIRST TIME IN AFRICA !

28 NOV - 02 DEC 2022

King Fahd Hotel, Dakar, Senegal

INTERDROUGHT 2022 (IDVII) aims at facilitating the development of concepts, methods and technologies associated with plant production in water-limited environments. It brings, among others, plant geneticists, breeders, physiologists, agronomists, soil and climate scientists to share their latest researches and advance the frontier of knowledge to combat this global problem.
